Tel: (+86) 1780-118-2651

Email: penghao.qian.seu@gmail.com

EDUCATION

Fudan University (FDU), Shanghai, China	2024.09 - Now
PhD students Major in Artificial Intelligence at School of Computer Science	
Southeast University (SEU), Nanjing, China	2021.09 - 2024.06
Master in Computer Science Average Score: 87.87/100 Rank: 5% (7/151)	
<ul style="list-style-type: none">Work on brain network analysis and neuron morphology under the lab of Prof. Hanchuan Peng.	
China Agricultural University (CAU), Beijing, China	2016.09 - 2021.06
Bachelor of Engineering Major in Computer Science GPA: 3.6/4.0 Rank: 15%	

RESEARCH EXPERIENCE

Analysis of structural and functional brain networks at the single-cell level	Southeast University
<i>Graduate Research</i>	<i>Supervisor:</i> Prof. Hanchuan Peng
	2021.09 - 2023.08
<ul style="list-style-type: none">Develop an algorithm to generate single-cell network from 1891 full morphology reconstructions.Find that bouton locations are not homogeneous and have a significant impact on network wiring.Explore the link between anatomical details and network topology by perturbing morphology.	
One paper was published in <i>Cell Reports</i> and got 2024 <i>Brains for Brains Young Researcher Award</i> .	

Tools for neuron classification based on manifold patterns	Southeast University
<i>Graduate Research</i>	<i>Supervisor:</i> A.P. Lijuan Liu
	2022.5 - 2023.08
<ul style="list-style-type: none">Develop a toolkit to analyze the manifold patterns in the feature space of neuronal morphology.Detect the optimal subspace of features for classification of more than 9,400 mouse neurons.	
One manuscript about manifold patterns was published in <i>Bioinformatics</i> . Another one is under review.	

Research of EEG signal correlation between students	Tsinghua University
<i>Undergraduate Research</i>	<i>Supervisor:</i> A.P. Dan Zhang
	2018.10 - 2020.06
<ul style="list-style-type: none">Provide a process to reduce artifacts in Electro-encephalography (EEG) data collected by portable devices, including slicing, evaluating data quality, removing slow drifts and ocular artifacts.Analyze the relationship between EEG correlations among students and scores in different subjects.	
One paper was published in <i>npj Science of Learning</i> .	

ACTIVITIES

Research Assistant	Institute for Brain and Intelligence, Southeast University
<i>Supervisor:</i> Prof. Hanchuan Peng	2024.06 - 2024.09
Research Assistant	Department of Psychology, Tsinghua University
<i>Supervisor:</i> Prof. Dan Zhang	2017.09 - 2020.06
<ul style="list-style-type: none">Learned Brain-Computer Interface (BCI) and Electro-encephalography (EEG) related knowledge. Participated in the experiment design and execution.Managed, processed, and analyzed the EEG and Electrodermal activity (EDA) data. Completed the preprocessing process of physiological data such as EEG in natural scenes.

CONFERENCES AND TALKS

- | | |
|---|------------------------------|
| Computational and Cognitive Summer School | Cold Spring Harbor, New York |
| • Only 30 students per year | 2024.06 |
| BioBit Program Summer School for Computational Biology | Zhejiang Lab, Hangzhou |
| • Best Poster and Best Student Award | 2023.08 |
| BioImage Informatics 2021 virtual conference | Institut Pasteur, Online |
| • Poster in <i>Bioimaging and microscopy applications</i> section | 2021.11 |
| The 3rd Annual Conference on Engineering Psychology of C.P.S. | East China Normal University |
| • Analysis of EEG data collected by portable devices were presented by A.P. Dan Zhang | 2019.10 |
| IEEE 4th International Summer School for Neural Engineering | Tsinghua University |
| • Comprehensive study of BCI techniques and participation in experiments | 2018.08 |

COMPETITION

- | | |
|---|--------------------------------------|
| The 18th China Postgraduate Mathematical Contest in Modeling | Guangzhou, China |
| Modeling of deep brain electrical stimulation (DBS) therapy for Parkinson's disease | |
| <i>Won the National 2nd Prize</i> | <i>Position: Team Leader</i> 2021.12 |
| Contemporary Undergraduate Mathematical Contest in Modeling | Beijing, China |
| Design of Dynamic Scheduling Strategy of Smart Rail Guided Vehicle (RGV) | |
| <i>Won the National 2nd Prize</i> | <i>Position: Team Leader</i> 2018.09 |

ADDITIONAL INFORMATION

Selected Honors

- | | |
|--------------------|---|
| 2024.06 | Best Outstanding Young Students Award (10 per year at the Southeast University) |
| 2024.06 | Honored Graduates Award (11 per year at the college) |
| 2024.05 | Brains for Brains Young Researcher Award (by Bernstein Network) |
| 2023.10 | National Scholarship (11 per year at the college) |
| 2023.10 | Honor Students Award (15 per year at the college) |
| 2021 - 2024 | First level scholarship of graduate students |
| 2017 - 2019 | Scholarship for Academic Excellence |
